Cleansing Agents & Consumables

SDS Drum Cleaner

Effectively removes tape residues, glue, oil and other dirt. Strongly recommended for the use on all scanner drums, in order to avoid familiar „crazing“ effects which are caused by prolonged use of unsuitable cleaning products such as film cleaner or methylated spirit.

Free of CFC!

Art.-No.: 020104	1 canister of 5 litres
Art.-No.: 020105	1 canister of 1 litre
Art.-No.: 540102	1 refill bottle empty, 0,5 l

SDS Film Cleaner

For cleaning and degreasing transparencies and films. Do not use to clean scanner drums. Free of CFC!

Art.-No.: 020204	1 canister of 5 litres
Art.-No.: 020205	1 canister of 1 litre
Art.-No.: 540103	1 refill bottle empty, 0,5 l

tap for our 5 l canisters

Art.-Nr.: 020401	1 SDS tap
------------------	-----------

SDS Sprayer

Spray nozzle for all 500 ml SDS Drum Cleaner and SDS Film Cleaner bottles. An alternative to the squirt top. Creates a fine mist.

Art.-No.: 020402	1 piece
------------------	---------

SDS Repro Wipes

Ultra soft, highly absorbent wood-free wipes. Ideal for effective clean-off of scanner drums and transparencies etc.. No residual hairs, dust etc., therefore no unnecessary scratching to drum surface or film.

Art.-No.: 030102	1 Dispenser of 100 wipes
------------------	--------------------------

SDS Antistatic Cloth

This soft cloth provides sensitive surfaces with an anti-static protective film. 30 cm x 22 cm

Art.-No.: 030302	1 cloth
------------------	---------

SDS Soft Cloth

An extremely soft material cloth, especially created for treating highly sensitive surfaces such as scanner drums, lenses, spectacles etc.. 29 cm x 29 cm

Art.-No.: 030202	1 cloth
------------------	---------

SDS Antistatic Brushes in different lengths

Ideal for dusting-off scanner drums and transparencies, as well as removing any static charge which may have built up. Available in different lengths.

Art.-No.:	040100	20 mm	1 brush
Art.-No.:	040102	30 mm	1 brush
Art.-No.:	040106	60 mm	1 brush
Art.-No.:	040103	100 mm	1 brush
Art.-No.:	040104	140 mm	1 brush
Art.-No.:	040105	280 mm	1 brush

SDS Polish

Polish for acrylic material. Removes light scratches and dull areas from scanner drums etc..

Art.-No. : 040401 1 tin with 100 ml

SDS Cleaning and Mounting Mat

Best results are obtained when placed on a light table. This mat is transparent and non-slipping, thus enabling thorough cleaning of transparencies aswell as excellent mounting preparation, as tape does not stick to the mat.

Art.-No.: 040201 1 piece

Accessories

SDS Anti Newton Spray

Prevents „Newton-rings“ forming between scanner drum and transparency. Finest mist, dries immediately. Free of CFC!

Art.-No.: 010102 1 can of 200 ml

SDS Montage Gel

Used when spraying becomes unsuitable (due to high enlargement work, 400 % and above). It is very clean and economical to use, easy to apply and to remove. It also compensates for small scratches on both transparencies and scanner drum. Environmentally friendly.

Art.-No.: 010202 1 tube of 100 ml

SDS Anti-Newton Oil

Prevents „Newton-rings“. A thin mineral oil that dries up without residue. Environmentally friendly.

Art.No: 010302 1 bottle á 250 ml

in higher viscosity:
SDS Anti-Newton Oil 240

Art.No: 010303 1 bottle á 250 ml

SDS Mounting Fluid

Especially designed for small to medium enlargements.. Prevents 'Newton-rings'. Its mild consistency helps to protect the acrylic.

Art.-No.: 010402 1 bottle à 50 ml

SDS Retouch Pen

Retouch pens in two sizes, from 0,3 mm - 3,0 mm. These pens are filled with rich-density red ink, dry quickly, are impervious to light and water-proof. Handier than any brush.

Art.-No.: 050102 ultrafine (UF)

Art.-No.: 050402 broad (B)

SDS Clean Air Duster

Pressured air in cans. CFC-free. Also available as refill.

SDS Clean Air Duster, Mastersystem

Art.-No.: 040702 1 tin of 360 ml

SDS Clean Air Duster, Refill

Art.-No.: 040703 1 tin of 360 ml

Magnifiers, linen testers

Please see attached our rich variety and ask for details.

Gloves

Art.-No.: 040601 SDS Latex Gloves 100 pieces available in different sizes.

Art.-No.: 040602 SDS Cotton Gloves 1 pair

SDS Mounting film

Crystal clear polyester mounting film. Untreated. For all enlargements.
Thickness: 0,1 mm

Art.-No.:	Size	Unit
130201	25 cm x 35 cm	100 sheet
130202	30 cm x 40 cm	100 sheet
130203	40 cm x 50 cm	100 sheet
130204	50 cm x 60 cm	100 sheet

SDS Mounting Tape

Art.-Nr.:	description
110501	SDS Mounting Tape 2260 12 mm/66 m
110502	SDS Mounting Tape 2260 19 mm/66 m

Please do not hesitate to inquire for other products which are not mentioned in this Brochure

SDS Scanner Lamps

Art.-No.	description	unit
060104	USHIO, Xenon UXL 150 MO Xenonlamp for CROSFIELD and ITEK Scanners 1500 hours lifetime	1 piece
060105	USHIO, Xenon UXL 150 S MO as 060104, but 3000 hours lifetime	1 piece
061004	Halogen lamp HLX 64610 Reflection and Transmission lamp for HELL and Linotype scanners	1 piece
061005	Halogen lamp HLX 64615 Reflection Lamp for DAINIPPON-Scanners	1 piece
061006	Halogen lamp JA 12 V / 55 W transmission lamp for DAINIPPON-Scanners	1 piece
061007	Halogen lamp HaloBellaphot 64255 Reflection and Transmission lamp for HOWTEK-Scanners	1 piece
061009	Halogen lamp JA 12 V / 35 W spare Lamp for 1030 / 1045	1 piece
061010	Halogen lamp HLX 64342 Lamp for Linotype-Hell Tango / Heidelberg PrimeScan	1 piece
060022	Cézanne spare lamps	1 pair

Scanner Drums

SDS New Drums

If available we can offer SDS Scanner Drums or used-refurbished ones.

SDS Refurbishment Service

Our service does not end with the sale of a drum. SDS offers a unique service which removes scratches and abrasions from both inside and outside the drum without affecting the diameter.

Scanner Drums are manufactured from sensitive acrylic, because this material is much lighter and more translucent than normal glass. Furthermore acrylic, unlike glass, is a light-fast material. This high sensitivity however is also responsible for the quick occurrence of scratches or dull areas caused by mounting products residues, which make the follow-up work on the scans extensive and costly.

Here the SDS Refurbishment Service can help.

Make use of our SDS Refurbishment Service, and see your used and damaged scanner drums turn out as good as new! We remove scratches and dull areas – without decreasing the diameter of your scanner drum. That means you can use our service as often as required.

Apart from a precise quality control when receiving the drum, and an end control after having completed the work on the drum, our Refurbishment Service includes a complete rebalancing, and, of course, replacing faulty screws, calibration strips etc. If you cannot do without your scanner drum, we offer a replacement drum of the same size for a small fee. We refurbish almost all common scanners drum. If you have further questions regarding this service or would like to make an appointment, please contact our sales department directly.

Job Preparation

SDS off-line Mounting Devices

Transparency Mounting Devices relieve your scanner and increase your work efficiency. While preparing the transparencies in your Transparency Mounting Device your scanner is able to continue operation (provided you have a second scanner drum). Our devices are manufactured from durable transparent acrylic. Apart from the modern design, they are translucent and useable on any light table. Our Transparency Mounting Devices are equipped with non-absorbent pressure rollers and an adjustable screen table.

The basic model is designed for the largest scanner drum type of a respective scanner model. For medium scanner drums special easy-to-place inserts are available. Please send us your inquiry.

Dainippon Screen Cézanne

Exchange of Cézanne-Scanning Plate

Art.-No.: 340301 1 Cézanne-Scanning plate

Mounting Aid

Art.-No.: 340302 1 Mounting aid

Weight Plates

covers the whole scanning area.

Art.-No.: 340303 1 Weight plate large

covers half the scanning area

Art.-No.: 340304 1 Weight plate small

Useful Information

Bank Charges

Please make sure that all bank charges relating to payments are for your account.

Hazardous Goods

Due to safety regulations we have to pack all hazardous goods in special UN-coded boxes.

The following SDS Products are hazardous: SDS Drum Cleaner, SDS Film Cleaner, SDS Anti Newton Spray, SDS Flatbed Cleaner, SDS Clean Air Duster.

Safety Data Sheets are available on request.

Large UN-coded box EUR 22,00

(for approximately 120 cans of spray, or 10 canisters of cleaner, 5 L)

Small UN-coded box EUR 7,00

(for approximately 34 cans of AN spray, 2 canisters of cleaner 5L or 14 canisters of cleaner, 1L)

Conditions

All mentioned prices in this price list are net prices, ex works Norderstedt. Shipping costs and transport insurance are not included. Our general terms of business are valid.
