

GREY STICKY BACKED FORMS CONVENTIONAL & UV CURING INKS

Forms

Specially designed blanket for use with most papers

Micro ground high performance surface layer provides excellent half tones, sharp dot reproduction and strong solids

Thick micro sphere compressible layer gives excellent smash resistance and eliminates moisture and solvent ingress making this a very durable blanket

Acrylic adhesive layer leaves minimal residue on press cylinder

Strong two ply fabric layer makes easy removal from press without tearing

Paper release material provides extra rigidity to the blanket when mounting

GREY STICKY BACKED TECHNICAL INFORMATION

Construction

Two-ply compressible

Surface

Micro ground

Smoothness

1.0µm

Compressibility

9.0% @ 100 N/cm²

Micro hardness

62°

Shore hardness

80°

Adhesive loop tack

25 N (10mm)²

Adhesive shear strength

30 N (10mm)²

Nominal thickness

0.90mm, product 0841

0.95mm, product 0842

1.0mm, product 0843

1.05mm, product 0844

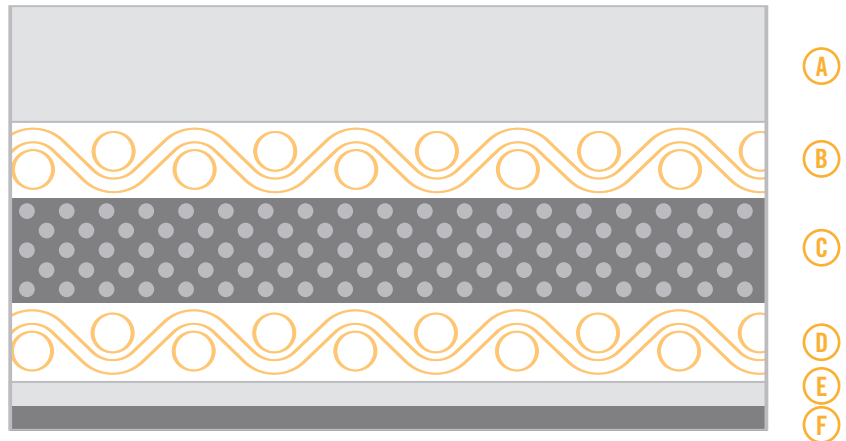

Standard roll width

1475mm

can be cut either way round

Colour

Grey

A. Micro ground surface
quality half tones, sharp dot & strong solids

B. Stabilising fabric
high quality and durable,
provides extra robustness

C. Thick micro sphere compressible layer
excellent smash resistance,
no moisture/ solvent absorption

D. Low stretch fabric
provides extra stability
to blanket

E. Acrylic adhesive layer
minimal residue on press
cylinder

F. Paper release sheet
easy blanket mounting,
extra rigidity
